## *The Adventure world is the world of adrenaline fun.*

Two water slides - each 140 m long with a 13 m height difference, a wave pool with an atoll in the middle, an adventure pool with faster stream taking you through the tunnel of water and light effects, an outdoor recreational pool, two whirlpools and several other water attractions will satisfy even the most demanding visitors.

The children's world is an excellent addition to the Adventure world. The pool for the youngest children is clearly divided. They can enjoy safe and educational activities there. The pool offers a child-friendly water slide, a water snake and numerous water play features. The pool for older children offers entertainment with attractions such as water cannons.

***Land of saunas will spoil each and every visitor.***

It offers a combination of dry and wet saunas on two floors.

Outside saunas arranged in small houses (Alpine sauna, Panoramic sauna, Earth sauna) are made of "kelo" wood which lasts for centuries, optimising inside temperature and humidity.

In the Land of saunas you may take a rest on pleasant terraces, in panoramic room and pools or treat yourself to a solarium.
